

23

(Verse 1)

It feels like a perfect night to dress up like clowns
And make fun of ourselves, yeah, we're acting like clowns
It's really ironic, we're feeling quite proud
Yeah, we don't know about you, but we're feeling 23

(Pre-Chorus)

Everything will be alright if we just keep jokin' around
We're trying to forget about the adulting that we've found

(Chorus)

Yeah, we're 23, everything's not okay
Our bills are piling up, but we just wanna play
We're dancing like we're young, but we're feeling old and gray
Yeah, we're 23, and we're lost in the fray

(Verse 2)

We're staying up too late, binge-watching TV shows
Eating junk food like there's no tomorrow, who knows?
Our friends all have jobs, but we're stuck in our ways
Yeah, we're feeling 23, but we're living like it's still our teenage days

(Pre-Chorus)

Everything will be alright if we just keep pretending
That responsibilities aren't just 'round the bendin'

(Chorus)

Yeah, we're 23, trying to figure out our path
We thought we'd have it sorted, but we're facing the aftermath
We're laughing 'til we cry, but it's a nervous laugh
Yeah, we're 23, and we're feeling the aftermath

(Bridge)

We're not quite sure where we're headed
But we're not ready to grow up just yet
We'll keep on living like we're free
'Cause in our hearts, we're still just 23

(Chorus)

Yeah, we're 23, trying to find our way
We're stumbling through life, but we'll be okay
We're singing at the top of our lungs, trying to keep the fears at bay
Yeah, we're 23, and we're here to stay
