

Cruel Slummer

(Verse 1)

Fridges empty, bank account low
No vacation, nowhere to go
Feels like winter, but it's June
Living in this cruel slummer, feelin' the gloom

(Pre-Chorus)

No beach parties, just Netflix and chill
Mosquito bites, it's a bitter pill

(Chorus)

This is a cruel slummer, heartache at its prime
No sunny skies, just clouds all the time
Dreaming of escape, but stuck in this bind
Oh, it's a cruel slummer, leaving us behind

(Verse 2)

No tan lines, just pale skin
Stuck inside, can't catch a win
Ice cream melting, streets are hot
In this cruel slummer, dreams forgot

(Pre-Chorus)

No late nights, just tossing in bed
Counting sheep, wishing we were misled

(Chorus)

This is a cruel slummer, no warmth to find
Sweating through the night, longing for a sign
Missing summer love, it's all intertwined
Oh, it's a cruel slummer, playing with our minds

(Bridge)

We were supposed to shine, but the clouds won't part
Stuck in this season, with a broken heart

(Chorus)

This is a cruel slummer, feels like a crime
No joy in the days, just wasting our time
Hoping for a change, a shift in design
Oh, it's a cruel slummer, no silver lining to find
